Press Release – June 27, 2005

Neoxen Systems expands to the Middle and Southern European software markets

SoftwareCasa, a leading software distributor in the Middle and Southern Europe and Neoxen Systems have signed a partnership agreement to bring Product Life Cycle and Project Management products and services to the European markets.

"Neoxen Systems represents an exciting expansion of process management solution vendors to our core operating regions. Their Neoxen family of products perfectly extends our solution and service offerings with proven and highly cost-effective products.", says Begonia Diez, SoftwareCasa CEO. "As a multilingual distribution expert we are able to serve their European customers with the local languages, especially in the German and Spanish markets."

"SoftwareCasa is an excellent example of how modern resellers can utilize secure, customer-friendly and time- and cost-saving Electronic Software Delivery as their primary service model", says Esa Tervo, Chief Executive Officer at Neoxen Systems. "As a leading ESD distributor SoftwareCasa provides excellent visibility to our products but also great added value to our customers."

SoftwareCasa ECS SL. is a leading distributor in the Middle and Southern Europe specialized in ESD sales of software solutions with competitive prices based on minimal delivery and packaging costs. Electronic Software Delivery (ESD) puts products available for customers no matter of time and place, without waiting - instantly for download after secure payment!

Neoxen Systems is an international technology and software company producing new generation of software development products, and solutions for ICT process improvement. The Neoxen product family

covers areas from business and technology development to state-of-the-art software production tools. Our unique offerings enable our users to innovate and create software solutions and business applications with extreme ease and efficiency. Solutions based on our award winning Neoxen® Technology are used to design, implement, build and distribute applications for in-house and commercial use. In addition we provide Professional Services for our corporate customers, including consultancy, implementation, integration, customization and training.
