

## For Immediate Release

**Press Release – July 7, 2005**

### **Miratel Chose Neoxen Trelox Integration Platform**

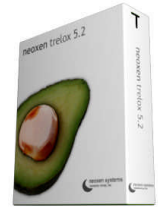

*Miratel Oy, a leading vendor of integrated communication and personal security systems and Neoxen Systems have signed multiyear contract to deliver process management solutions based on Neoxen<sup>®</sup> QX Framework and Neoxen<sup>®</sup> Trelox technologies. The full sales value of the contract will exceed one million euros.*

"This deal is a remarkable signal strengthening our vision in technology trends. It confirms that our chosen direction in research and development shows the choice to be true." says Esa Tervo, Chief Executive Officer at Neoxen Systems. "Neoxen product family fully utilizes the latest Microsoft technologies, such as Visual Studio 2005 Team System and SQL Server 2005 database. Our solution scales from individual workstations to distributed team collaboration between networked organizations. It seamlessly connects business systems with process engineering."

Neoxen<sup>®</sup> QX Framework platform and Neoxen<sup>®</sup> Trelox mediation broker enable rapid development of multilingual business systems suitable for international business operations in Windows and Linux environments. With Neoxen<sup>®</sup> Modus methodology package Product Life Cycle Management, Process Engineering and Optimization can be efficiently connected to business systems.

Esa Tervo describes today's markets: "Controlling networked supply chains and effective steering of operating processes form the biggest challenges in developing competitive business practices." and continues: "Standardization and optimization of process models improve the operational quality and brings significant cost savings."

**Miratel Oy** is a high-tech supplier of integrated communication and personal security systems. Having an extensive product portfolio, they provide tailored solutions to their customers for their specific demands in everyday work and security.

Over the past years, Miratel has delivered telephone, nurse call and personal security systems to hospitals and health centers as well as to sheltered housing, homes for the elderly – for more than twenty five thousand beds or residents.
