

## **For Immediate Release**

**Press Release – January 13, 2006**

### **New enhanced Qwined 2006 Editor to fasten and ease Developers' work**

*Neoxen Systems has announced maintenance release of their fully featured developers' editor. Neoxen Qwined 2006 is available for 32-bit and 64-bit Microsoft Windows operating systems.*

"Qwined 2006 is developed and tested with new Microsoft Visual Studio 2005 environment among the first products on the markets." said Tero Toropainen, Product Management Director at Neoxen Systems. "By using latest development environment from Microsoft, we already started focus to integrate award winning Neoxen Qwined seamlessly with Office 12 development tools and forthcoming Windows Vista."

Neoxen Qwined is award winning fully featured Programmer's Editor supporting over twenty Programming Languages and Configuration File formats out of the box. It has a built-in and customizable word and symbol auto completion for Windows and Web development, code folding, theme support and much more. It is highly configurable and integrates into Windows Explorer Menu System. It can be easily extended by third parties and it can be localized virtually in different languages.

"Neoxen Qwined 2006 release brings many fixes to issues reported by the end-users. These fixes will make the product even more stable and convenient to use." Toropainen continues. "Also new themes for user interface are included in the package."

Neoxen Qwined 2006 is currently able to syntax style over 20 programming languages such as Assembler, C/C++/C#, Eiffel, Fortran, Java, Lisp, Pascal, Perl, PHP, Python, Ruby just to mention few of them. It has been translated into 25 languages; this version of the product provides the localization for instance for Scandinavian and most of the European languages, Chinese, Japanese, Russian and Turkish.

Neoxen Qwined 2006 is available for free download from [Neoxen Downloads site](#).

**Neoxen Systems** is a Microsoft Gold Certified Partner and Microsoft Visual Studio Industry Partner specialized in Document Management and collaborative Process Management solutions for global markets. With our Neoxen technology and product family we help our customers to succeed by reducing their time-to-market efforts, increasing their customer satisfaction, improving quality and increasing their organizational performance.
