Press Release – 20th of October 2017 – Turku

Neoxen becomes Bentley Gold Channel Partner

Neoxen Systems has entered into a contract with Bentley to become preferred partner in Finland. As Bentley’s Gold Channel partner Neoxen will provide sales, training and services to infrastructure solution communities.

Bentley Systems is a global leader dedicated to providing engineers, architects, geospatial professionals, constructors, and owner-operators with comprehensive software solutions for advancing infrastructure. Founded in 1984, Bentley has more than 3,000 colleagues in over 50 countries, more than \$600 million in annual revenues, and since 2011 has invested more than \$1 billion in research, development, and acquisitions.

“We are very excited about this partnership and happy to be working with Bentley’s flagship products such as [MicroStation](#), [ProjectWise](#) and the whole CONNECT Edition product family. As Bentley’s representative in Finland we’ll be the first point of contact for their Finnish customers. We’ll use our industry expertise and knowledge in delivering, implementing, training and providing support for Bentley’s solutions. This partnership is a great opportunity to us since we can broaden our portfolio with Bentley’s powerful infrastructure software.” says **Esa Tervo**, CEO of Neoxen Systems.

Neoxen Systems *is a cloud software services company. We develop, operate and resell internationally certified information management solutions for businesses, public sector and educational institutions. We are a Microsoft Gold Partner with multiple competencies, including Datacenter, Data Platform and Data Analytics.*
